Now ready, price 7s. 6d.

Spermatorrhœa; its Results

and COMPLICATIONS. Enlarged and Reprinted from the original papers published in *The Lancet* for 1852, and the *Medical Circular* for 1858. By J. L. MILTON, Surgeon to St. John's Hospital for Diseases of the Skin. Eleventh Edition, illustrated with Engravings.

"To those desirous of acquiring a scientific knowledge of this affection, together with its treatment, we most heartily recommend this excellent treatise on the subject."—*Canada Med. & Surg. Jour.* "The work is clearly and intelligibly written, and supplies a want."—*Glasgow Med. Jour.* "The treatment especially is founded on common sense in many important particulars."—*Edin. Med. Jour.* "We cordially recognise the completeness of his monograph."—*Med. Exam.*

London: HENRY RENSHAW, 356, Strand, W.C.

On the Immediate Treatment of STRICTURE of the URETHRA.

By BARNARD HOLT, F.R.C.S., Consulting Surgeon to the Westminster Hospital. "Mr. Holt's method of treatment of stricture of the urethra by 'immediate dilatation' is so fully recognised and practised by surgeons of the day, that his work, in which the results of his own practice are recorded can need no recommendation."—*Lancet.*

"This work will both spread Mr. Holt's already well-earned reputation, and—what he will value far more—will help to lessen human suffering and prolong human life."—*Edin. Med. Journal.*

J. & A. CHURCHILL, New Burlington Street.

Crown 8vo, cloth, 3s. 6d.

The Harrogate Waters: Data,

Chemical and Therapeutical; with Notes on the Climate of Harrogate. By G. OLIVER, M.D.Lond., M.R.C.P., etc.

"Gives a clear history of the varied resources of Harrogate.... it concludes with a well-considered account of the therapeutic action of the waters. Works like the present, and that of Dr. Spender of Bath, will help much to raise the character of the literature of English balneology."—Dr. MACPHERSON in the *London Medical Record.*

"Calculated fully to sustain the reputation of Harrogate. Full of practical interest to working members of the profession."—*Med. Press and Circular.*

"The book, which bears no trace of that spirit of advertisement which characterises, not unfrequently, a treatise written with a special object, may be commended, in the words of the dedication, to the members of the medical profession—the legitimate court to which the curative claims of medicinal springs must be referred."—*Pharmaceutical Journal.*

London: H. K. LEWIS, 138, Gower Street W.C.
