J. and A. CHURCHILL, New Burlington Street.

Now ready, post 8vo, 6s. 6d., Vol. LVII of
The Half-Yearly Abstract of the MEDICAL SCIENCES. Edited by WM. DOMETT STONE, M.D., F.R.C.S. (Exam.)

This work has now been published regularly for twenty-eight years and a half, and has acquired the highest reputation for the ability and industry with which the essence of Medical literature is condensed into its pages. It purports to be a "Digest of the principal British and Continental Medical Works published in the preceding Six Months," and, in addition to the matter thus derived from independent treatises, it presents an abstract of all that is important or interesting in about sixty British and Continental Journals. Each article is carefully condensed, so as to present its substance in the smallest possible compass, thus affording space for the very large amount of information laid before its readers.

J. and A. CHURCHILL, New Burlington Street.

THE BRITISH AND FOREIGN Medico-Chirurgical Review.

Contents of No. CIII, JULY, Price 6s.
