NEW WORK BY DR. MURCHISON.

On Functional Derangements of the LIVER. By C. MURCHISON, M.D., LL.D., F.R.S., Physician and Lecturer on Medicine, St. Thomas's Hospital, and formerly on the Medical Staff of H.M.'s Bengal Army. Crown 8vo, 5s. London: SMITH, ELDER, & Co., 15, Waterloo Place.

Demonstrations of Anatomy :

being a Guide to the Knowledge of the Human Body by Dissection. By GEORGE VINER ELIAS, Professor of Anatomy in University College, London. Seventh Edition, Revised. With 248 Engravings on Wood. Small 8vo, 12s. 6d.

The number of illustrations has been largely added to in this edition, and many of the new woodcuts are reduced copies of the plates in the Author's work 'Illustrations of Dissections.'

London: SMITH, ELDER, & Co., 15, Waterloo Place.

The Maintenance of Health.

A Medical Work for Lay Readers. By JOHN MILNER FOTHERGILL, M.D., M.R.C.P., Junior Physician to the West London Hospital. Crown 8vo, 12s. 6d.

London: SMITH, ELDER, & Co., 15, Waterloo Place.

A Practical and Theoretical

Treatise on DISEASES of the SKIN. By GEORGE NAYLER, F.R.C.S. Second Edition, with Illustrations. 8vo, 12s. 6d.

London: SMITH, ELDER, & Co., 15, Waterloo Place.

A Manual of Toxicology, in-

cluding the Consideration of the Nature, Properties, Effects, and Means of Detection of POISONS, more especially in their Medico-Legal Relations. By JOHN J. REESE, M.D. 8vo, 12s. 6d.

London: SMITH, ELDER, & Co., 15, Waterloo Place.

A Treatise on Therapeutics :

comprising MATERIA MEDICA and TOXICOLOGY; with Especial Reference to the Application of the Physiological Action of Drugs to Clinical Medicine. By H. C. WOOD, jun., M.D. 8vo, 12s. 6d.

London: SMITH, ELDER, & Co., 15, Waterloo Place.

An Epitome of Therapeutics.

Being a Comprehensive Summary of the Treatment of Disease as recommended by the leading British, American, and Continental Physicians. By W. DOMETT STONE, M.D., F.R.C.S. Crown 8vo, 8s. 6d.

London: SMITH, ELDER, & Co., 15, Waterloo Place.

West Riding Lunatic Asy-

LUM REPORTS, Vol. IV.—1874. Edited by J. CRICHTON BROWNE, M.D. Containing Twelve Papers upon Mental and Nervous Physiology and Pathology, by Drs. Carpenter, Hughlings Jackson, Lauder Brunton, Ferrier, Milner Fothergill, and the Medical Officers of the Asylum. Demy 8vo, 8s. 6d.

London: SMITH, ELDER, & Co., 15, Waterloo Place.

Notes of Demonstrations on

PHYSIOLOGICAL CHEMISTRY. By S. W. MOORE, Joint Demonstrator of Practical Physiology at St. George's Medical School; Fellow of the Chemical Society, etc., etc. Crown 8vo, 5s. 6d.

London: SMITH, ELDER, & Co., 15, Waterloo Place.

Literary Intelligence.

Messrs. Churchill's Red-Letter LIST.

GIVING THE TITLES OF

60 NEW WORKS & NEW EDITIONS,

To be shortly published, will be found in the

October Numbers of the

BRITISH AND FOREIGN MEDICO-CHIRUR-

GICAL REVIEW.

EDINBURGH MEDICAL JOURNAL.

DUBLIN JOURNAL OF MEDICAL SCIENCE.

New Burlington Street, London.

In Preparation, with Engravings, 8vo.

The Face, Mouth, & Throat :

the Surgical Treatment of their Diseases, Injuries, and Deformities. By FRANCIS MASON, F.R.C.S., Senior Assistant-Surgeon and Lecturer on Anatomy at St. Thomas's Hospital.

J. & A. CHURCHILL, New Burlington Street.

8vo, 14s.

Illustrations of the Influence

of the MIND upon the BODY.

By DANIEL HACK TUKE, M.D.

"Dr. Tuke has written a history of the powerful influence exerted by the Imagination, placed beyond a doubt the importance of this too much neglected therapeutic agent (which is not confined to a single unhelped cure), and has very much narrowed the area of the marvellous."—BRIERE DE BOISMONT in the *Annales Médico-Psychologiques*, July, 1874.

J. & A. CHURCHILL, New Burlington Street.

In one volume of 1100 pp., with 507 Engravings on Wood, of which more than 400 are original, those illustrating the Ligature of Arteries being Coloured. Crown 8vo, 21s.

The Practice of Surgery :

A MANUAL.

By THOMAS BRYANT, F.R.C.S., Surgeon to Guy's Hospital.

"For the student the work is a first-rate one. Mr. Bryant teaches with the enthusiasm of one who has faith in his teaching; he speaks with authority, and herein lies the charm and excellence of his work. The book combines much of the merit of the manual with the merit of the monograph. One may recognise in almost every chapter the acuteness of a surgeon who has seen much, and observed closely, and who gives forth the result of actual experience. We think it precisely the kind of book which a conscientious teacher of clinical surgery should be glad to see in the hands of his students. Some of the woodcuts are admirable specimen of art."—*Dub. Jour. of Med. Science*.

"We have read this book with much care and considerable pleasure. It contains an immense amount of information."—*Edin. Med. Jour.*

"Mr. Bryant's volume gives proof throughout of being the work of a well-practised surgeon. . . . One noteworthy feature in this book is the originality of the bulk of his illustrations. We have got so tired of the old stock illustrations which have done duty for the last thirty years, and have been produced *ad nauseam* in this country and America, that it is quiet refreshing to find new cuts. Another novelty is, that the arteries and veins in the illustration of the ligation of the arteries have been coloured red and blue respectively. . . . The surgeon who turns to the book for advice on an emergency will find sound, practical good sense contained in it. We sincerely trust that the book may prove a success."—*Lancet*.

"The whole handling of his subject is original and independent, and bespeaks a man who knows what he is writing about. . . . No pains have been spared in searching for information from every trustworthy source, and great credit is due to Mr. Bryant for the manner in which he introduces, in their own garb, the authors from whom he quotes. Thus he does full justice to the authority he introduces, and the authority itself is more thoroughly impressed upon the reader."—*Med. Times and Gaz.*

J. & A. CHURCHILL, New Burlington Street.

Half-price given for the fol-

lowing Numbers of the BRITISH MEDICAL JOURNAL, viz., January 3rd, 10th, 17th, 24th, February 7th, March 7th, and July 18th and 25th, 1874. Clean copies.—Apply to the Office of the JOURNAL.
